

HANDWASH

HPV wants to hear from companies with the capacity to supply handwash to support a centrally managed State Supply Chain (SSC). The SSC has been established to ensure essential supplies reach areas with the greatest clinical need. If you have capacity to supply the products outlined below please contact us at suppliers@hpv.zendesk.com. If you would like to offer manufacturing capability to make supplies for the COVID-19 response, please send your offer to medicalPPEsupplies@djpr.vic.gov.au.

To enable additional supply, the TGA is also reviewing product regulations for handwash. If your product(s) are not TGA certified, you will need to begin the application process. Please contact the TGA directly to start this process in parallel with HPV registration. Email: devices@tga.gov.au or call: 1800 141 144.

SCOPE

We are looking for the following types of handwash:

Non-surgical, medicated

- With chlorhexidine, 2%
- No triclosan
