1.1.1	Requirement Attachment	Please note that we have uploaded attachments in the technical envelope. Companies must download these documents and consider the details before they complete their response
1.1.2	Note:	USE THE ONLINE 'HELP FOR RESPONDENTS' FUNCTION - The content is designed to explain the eSourcing platform in business terms, allowing you to quickly understand the features and benefits of the software.
1.1.3	Note:	SAVE REGULARLY - For security reasons your access to the portal will "time out" if inactive for 15 minutes if you do not click "save" within this time. Failure to do so means you risk losing your work. This is to maintain security and tender integrity and cannot be changed. NOTE: typing does not mean you are active on the portal!
1.1.4	Note:	Please ensure that 'pop ups' are NOT blocked on your browser. Should you be inactive for 15 minutes, the portal will notify you through a 'pop up'. It is vital that that you are able to see this in order to dick the 'Refresh' link in this 'pop up' so you are not disconnected from the portal and lose any unsaved information.
1.1.5	Note:	DO NOT leave your response until the last minute/hours before the deadline (if you experience connection problems you will miss the deadline. Always upload generic information early to avoid last minute time pressure).
1.1.6	Note:	Please SUBMIT your RESPONSE when completed. This will submit your response to the buyer. FAILURE TO DO THIS WILL RESULT IN YOUR BID NOT BEING VISIBLE TO THE BUYER. The 'SUBMIT RESPONSE' button can be found at the top centre of the screen.
1.1.7	Note:	If the Buyer makes any changes to the settings and questions area of a livel-tunning tender, suppliers MUST re-publish their response - this is to ensure that changes are brought to your attention - you may receive a message prompt from the Buyer - generally this will not mean re-entering information.
1.1.8	Note:	Whilst the portal allows for large individual attachment sizes (max 50Mb at a time), we recommend that you keep attachments to a manageable size (5Mb) to ensure ease & speed of access. Only attach documents that the Buyer has requested and make sure that you attach them in the correct area.

### SAVE REGULARLY.

If you are inactive on the site for more than 15 minutes you will need to sign in again and any unsaved data will be lost.

# Tips for Responding

- Do not assume your company is known or well known by the evaluators – provide all requested information
- Do not use acronyms or abbreviations
- Do not cross-refer to other questions or answers in your responses
- Remember to save regularly
- Submit early you can overwrite your information up to the time of closing. Late submissions can only be accepted if they meet the strict conditions of the *ITS Late Responses* clause
- Multiple users working on a submission can cause errors and delays. It is strongly recommended that only one user be logged on at one time to work on a submission.
