HPVITS2025-079: Intravenous Access Devices, Administration and Neural Connector Consumables (IVADANCC)

HealthShare Victoria (HSV)

Our purpose

- HSV is an independent public sector and commercially oriented supply chain, procurement and corporate services organisation.
- HSV partners with public health services and suppliers to deliver significant public health system benefits including consistent access to goods, improved quality of care and substantial savings, helping to deliver better healthcare for all.

Our core functions

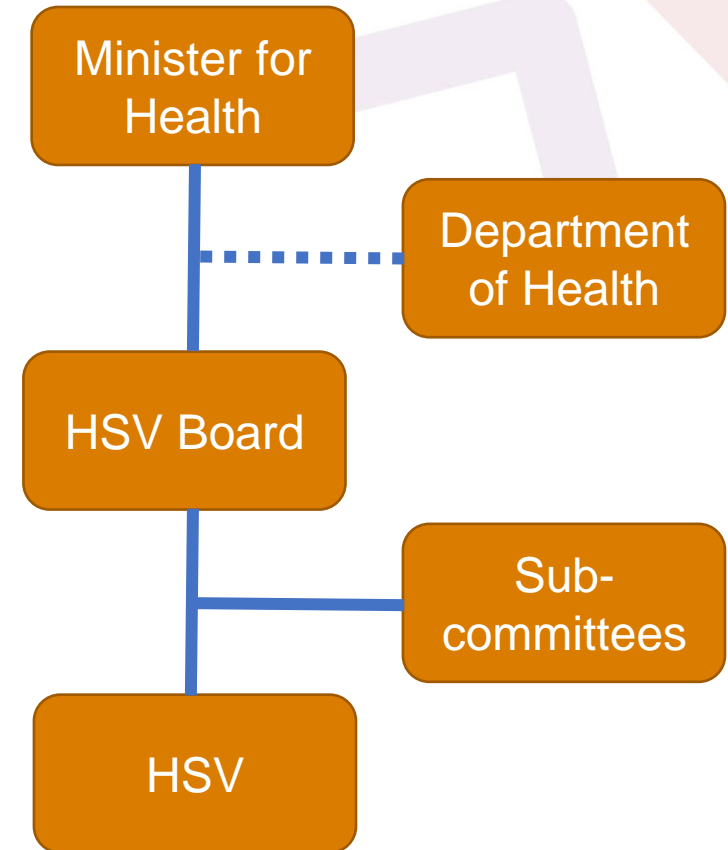

- Manage a state-wide supply chain for medical consumables, including PPE
- Coordinate state-wide strategic procurement
- Deliver more efficient corporate services

Our vision

- We help to deliver safe, affordable and sustainable healthcare.

HSV Organisation

- **Independent statutory authority** funded by the Department of Health
- Established on 1 January 2021, HSV brings the former Health Purchasing Victoria's (HPV) existing functions and major supply chain assets under single management
- Receives legislative support to establish whole of health contracts
- Processes based on the Victorian Government Procurement Board's Strategic Sourcing Principles

HSV Objectives

- **Facilitate access** by public hospitals and health services to goods, services and equipment on best-value terms
- **Combine the collective purchasing power** of more than 80 legal entities to establish whole-of-health contracts
- **Foster supply chain and process improvement**, through developing relationships with suppliers and health services
- **Ensure probity** is maintained in purchasing, sourcing and contracting activities

Supplier Code of Conduct

The Victorian State Government is committed to ethical, sustainable and socially responsible procurement.

In ensuring that our suppliers maintain the same values as the Government, the State has established a [Supplier Code of Conduct](#).

The Code outlines minimum ethical standards in behaviour that suppliers will aspire to meet when conducting business with, or on behalf of, the State:

- integrity, ethics and conduct
- conflict of interest, gifts, benefits and hospitality
- corporate governance
- labour and human rights
- health and safety
- environmental management

It is a mandatory requirement that you understand and acknowledge commitment to the code, and ensure it is understood by related parties, contractors and sub-contractors if awarded.

Victorian health suppliers' minimum standards

- **Therapeutic Goods**
– TGA approved
- **GS1 data standards**
(NPC contract compliance obligation)
- **Recall Health**
(contract compliance obligation)

Fair Jobs Code (FJC)

The Fair Jobs Code (FJC) aims to improve employment outcomes for persons employed by suppliers and service providers to the Victorian Government. The FJC is implemented by Victorian Government departments, agencies and public bodies to help support and promote fair labour standards and to ensure compliance with employment law.

The FJC applies to the purchase of goods and/or services, regardless of the method of procurement.

The FJC applies to threshold procurement contracts (contracts with a value of \$3 million or more exclusive of GST) and high value procurement contracts (contracts with a value of \$20million or more exclusive of GST).

For further information, Respondents should refer to the FJC and FJC Guidelines which can be found at www.buyingfor.vic.gov.au/fair-jobs-code-guidelines-suppliers-and-businesses

Successful respondents must complete:

- Fair Jobs Code Pre-Assessment Certificate
- Fair Jobs Code Plan
- Agreement and continuing FJC obligations

Please see Part 3 : Respondent's Offer section 11. Fair Jobs Code in the Part 1-7 ITS documents.

Local Jobs First (LJF)

Through its Local Jobs First policy (LJF), the Victorian Government is committed to improving opportunities for local suppliers to create more new jobs and grow the economy.

The policy is to ensure that small and medium size enterprises (SMEs) are given a full and fair opportunity to compete for government contracts, such as hospitals, schools and road projects, while still achieving value for money.

What you need to know

- The **Industry Capability Network (ICN)** can assist you in documenting your **Local Industry Development Plan (LIDP)**
- Access the VIPP Management Centre (VMC) via this <https://icn.org.au/who-are-we/our-team/#vic>
- Give yourself time to develop your LIDP for submission
- LIDPs will be evaluated as part of our assessment of Value for Money
- LIDP outcomes will need to be reported to HSV

You are not required to provide a Local Industry Development Plan (LIDP) at this stage;

If awarded to contract, you might be subsequently requested to produce a LIDP

Master Supply Agreement (MSA)

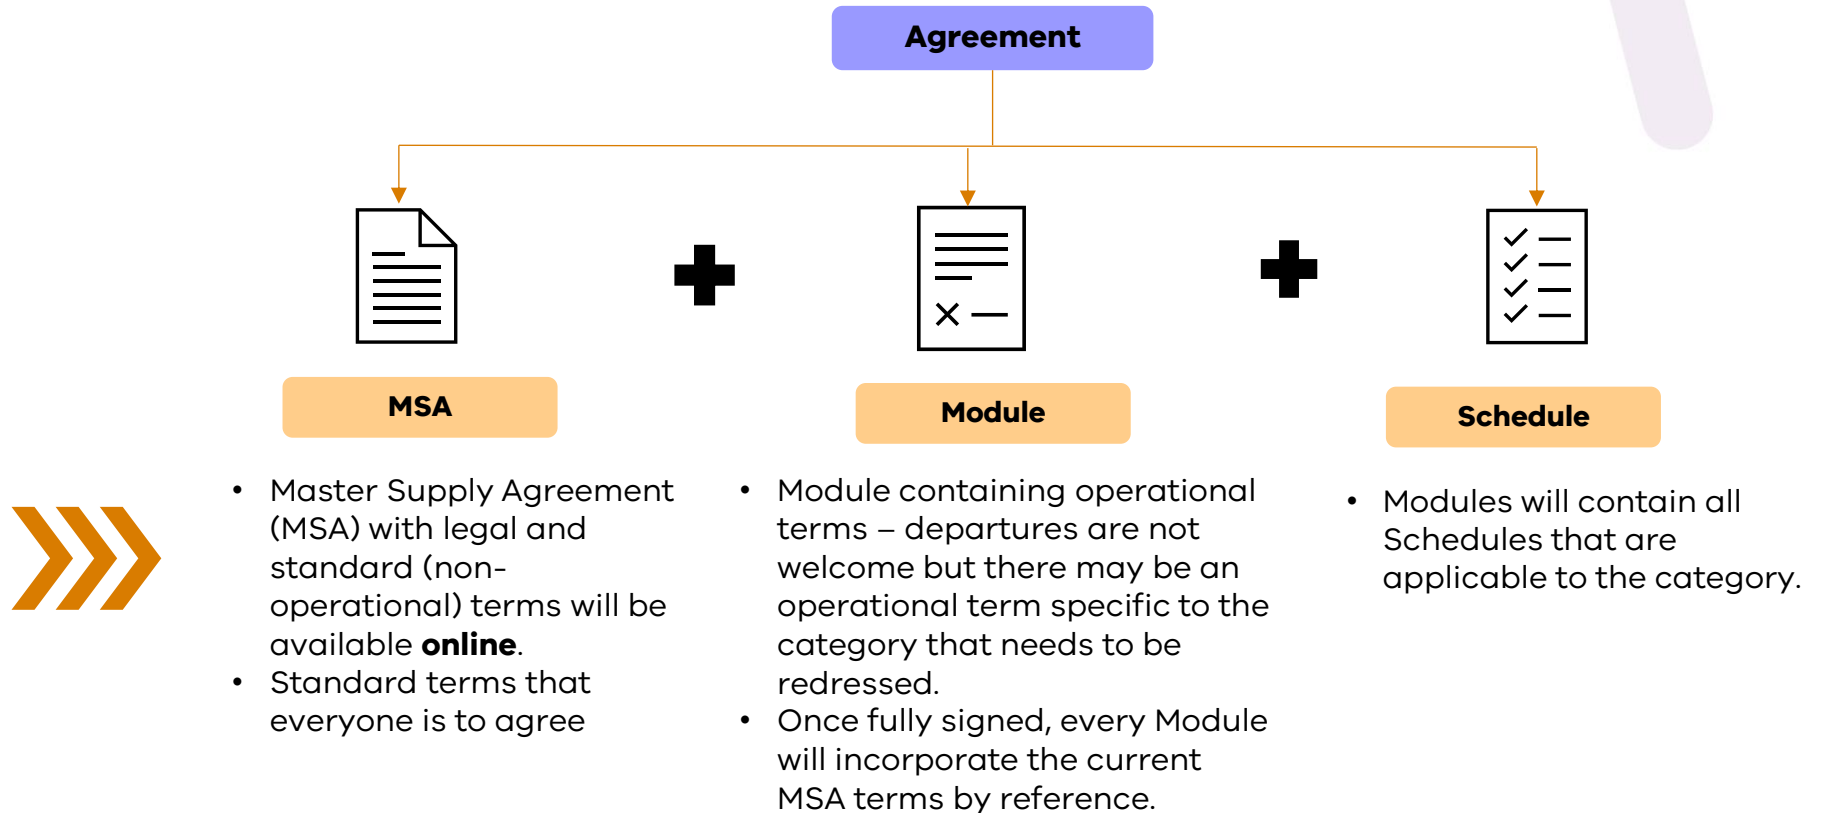

Current state

Individual suppliers sign a document containing operational, legal and other standard terms and conditions, service deliverables, pricing and schedules.

Tender Response Worksheet (TRW)

- The TRW is used to collect detailed data on the products tendered, including price and supplier/distributor data. **The TRW has changed since the last tender**
- Data will be used to evaluate your products. – If your data is wrong or incomplete **your product may be (inadvertently or consciously) not awarded**
- Data will ultimately feed into Pricing Schedules, the HSV Catalogue, EDI (purchasing systems), WMS etc. **It's not just for clinicians**
- **Processes in HSV and Health are becoming more automated** – If your data is incorrect, ultimately it will be harder for your customers to find, use, understand and buy your products!

Tender Response Worksheet (TRW)

Instructions for completion

- Complete **all** requested information in the requested format
 - Mandatory data missing = Product won't be awarded
 - Include units as required/applicable
- Tender products once only, in the most appropriate sub category
- The "Commercial", "Clinical" and "Supply Chain" tabs are linked for each Category by the Grey (Formula driven) Cells. Do not override or delete these formulas and do not add or delete columns, or individual cells
- To add rows (if >200 products per category) ensure that rows are added to the bottom of the "Commercial", "Clinical" and "Supply Chain" tabs & all formulas "fill down". Contact HSV if required

Data Integrity in TRW

- Poor quality information will be returned for correction:
 - UNSPSC (at least to class level xx xx xx 00)
 - UOM descriptor must be reflective of GS1 Packaging Type descriptor (e.g. 'carton' not 'sleeve')
 - ARTG must have a number or be listed as EXEMPT
 - Country of Manufacture must be populated and reflective of GS1 code lists (e.g. 1: Australia, not Aust, not Victoria, not Brunswick – e.g. 2: United States, not USA or America or Iowa)
 - Ordering part numbers must be complete
- This will not be an opportunity to review pricing – ensure it is correct (and the Net Content is correct) at time of submission
- Any delay in the evaluation process due to poor quality data may result in HSV deeming your response non-complying and set it aside from further evaluation

Data Integrity– TRW Errors

- **ITS Missing Data-By Category**
 - Use this summary to ensure the same number of products in the Commercial, Clinical and Supply Chain tabs
- **ITS Missing Data-By Subcategory**
 - Use this summary to ensure the same number of products in each subcategory in each of the appropriate tabs
- **ITS Missing Data-Full Breakdown**
 - Use this summary for a full breakdown of missing data and possible errors. In most cases hyperlinks from this sheet will take you straight to the error for speedy rectification.

Tip: If the TRW is running slow, set calculations to manual while entering data, and back to auto-calculate once finished to check if any data is incorrect or missed

Note that responses – including pricing – are sealed until tender close. Your response is locked and inaccessible to the buyer until then.

To confirm that your response has been submitted, check that "My RFQs" shows "Response Submitted to Buyer" for that ITS.

The screenshot shows the HealthShare Victoria Sourcing interface. On the left, a navigation menu is highlighted with a red circle '1'. The 'RFQs' menu item is selected, and a sub-menu is open with 'My RFQs' highlighted by a red circle '3'. A red circle '2' is placed over the 'RFQs' menu item. A table of RFQs is displayed with columns for ID, Name, Tender, Date, Status, and Buyer Organisation. Tips for Responding

- Do not assume your company is known or well known by the evaluators – **please provide ALL requested information**
- Do not use acronyms or abbreviations
- Do not cross-refer to other questions or answers in your responses
- Please respond to **HSV Procurement Portal and TRW 'mandatory' questions, eg asterisk (*) marked** accordingly and completed in full
- **Remember to save regularly**
- **Submit early** – you can overwrite your information up to the time of closing. Late submissions can only be accepted if they meet the strict conditions of the *ITS Late Responses* clause
- Multiple-users working on a submission can cause errors and delays. It is strongly recommended that only one user be logged on at one time to work on a submission.
