HealthShare Victoria

Our purpose

- HSV is an independent public sector and commercially oriented supply chain, procurement and corporate services organisation.
- HSV partners with public health services and suppliers to deliver significant public health system benefits including consistent access to goods, improved quality of care and substantial savings, helping to deliver better healthcare for all.

Our core functions

- Manage a state-wide supply chain for medical consumables, including PPE
- Coordinate state-wide strategic procurement
- Deliver more efficient corporate services

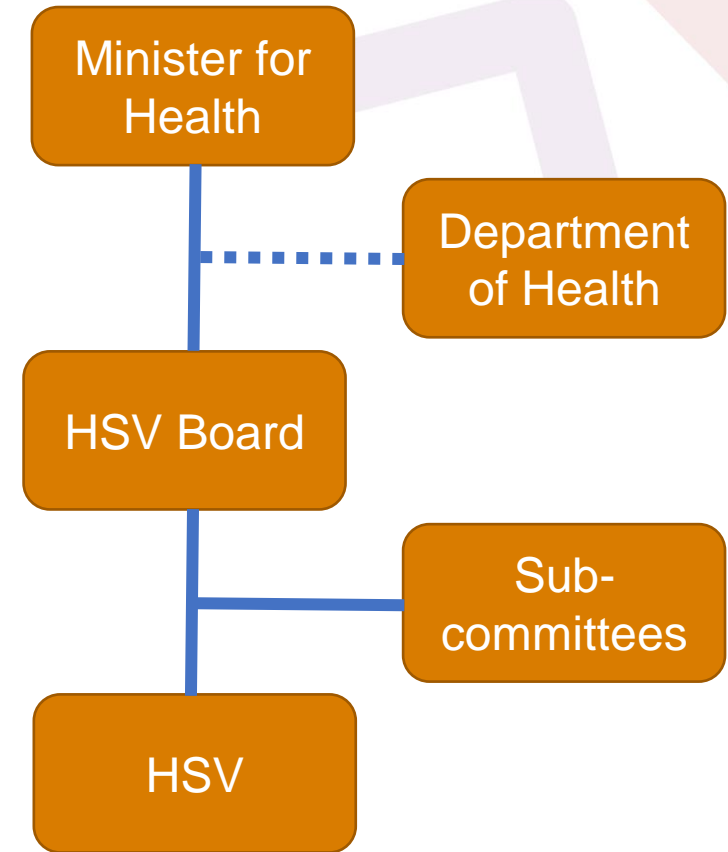

Our vision

- We help to deliver safe, affordable and sustainable healthcare.

HSV Organisation

- Independent statutory authority funded by the Department of Health
- Established on 1 January 2021, HSV brings the former Health Purchasing Victoria's existing functions and major supply chain assets under single management
- Receives legislative support to establish whole of health contracts
- Processes based on the Victorian Government Procurement Board's Strategic Sourcing Principles

HSV Objectives

- Facilitate access by public hospitals and health services to goods, services and equipment on best-value terms
- Combine the collective purchasing power of more than 80 legal entities to establish whole-of-health contracts
- Foster supply chain and process improvement, through developing relationships with suppliers and health services
- Ensure probity is maintained in purchasing, sourcing and contracting activities

Supplier Code of Conduct

The Victorian State Government is committed to ethical, sustainable and socially responsible procurement.

In ensuring that our suppliers maintain the same values as the Government, the State has established a [Supplier Code of Conduct](#).

The Code outlines minimum ethical standards in behaviour that suppliers will aspire to meet when conducting business with, or on behalf of, the State:

- integrity, ethics and conduct
- conflict of interest, gifts, benefits and hospitality
- corporate governance
- labour and human rights
- health and safety
- environmental management

It is a mandatory requirement that you understand and acknowledge commitment to the code, and ensure it is understood by related parties, contractors and sub-contractors if awarded.

Master Supply Agreement

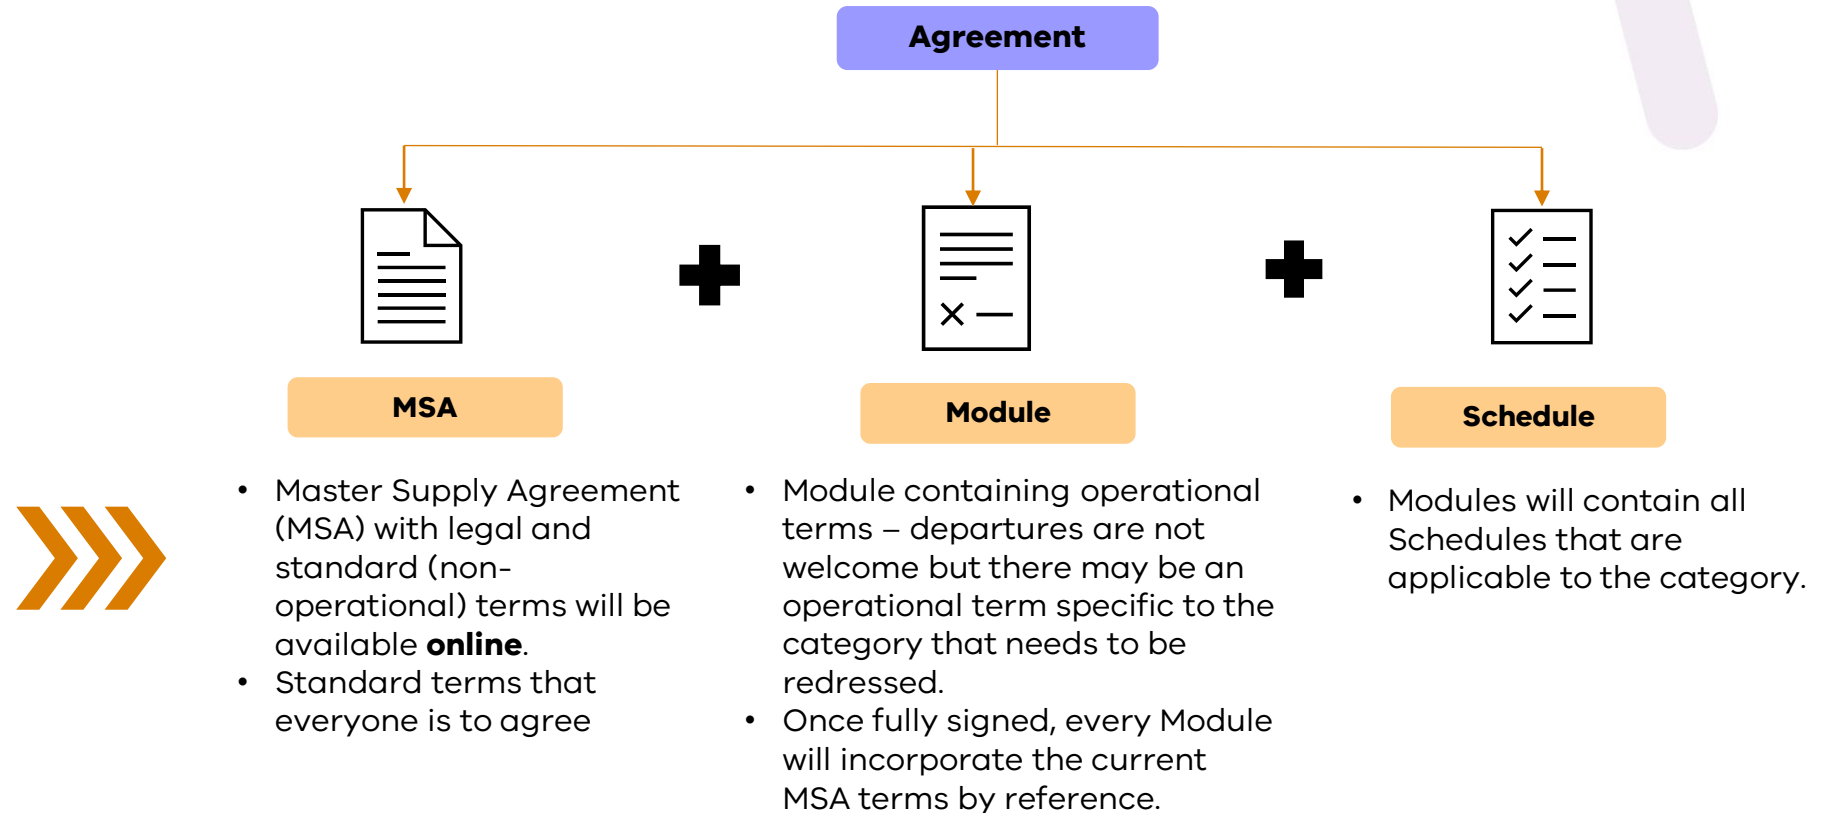

Current state

Individual suppliers sign a document containing operational, legal and other standard terms and conditions, service deliverables, pricing and schedules.

i 500+ Suppliers
900+ Contracts

Future for all NEW market approaches

Local Jobs First

Through its Local Jobs First policy, the Victorian Government is committed to improving opportunities for local suppliers to create more new jobs and grow the economy.

The policy is to ensure that small and medium size enterprises (SMEs) are given a full and fair opportunity to compete for government contracts, such as hospitals, schools and road projects, while still achieving value for money.

What you need to know

- The Industry Capability Network (ICN) can assist you in documenting your Local Industry Development Plan (LIDP)
- Access the VIPP Management Centre (VMC) via this [link](#)
- Give yourself time to develop your LIDP for submission
- LIDPs will be evaluated as part of our assessment of Value for Money
- LIDP outcomes will need to be reported to HSV

Fair Jobs Code

The Fair Jobs Code (FJC) aims to improve employment outcomes for persons employed by suppliers and service providers to the Victorian Government. The FJC is implemented by Victorian Government departments, agencies and public bodies to help support and promote fair labour standards and to ensure compliance with employment law.

The FJC applies to the purchase of goods and/or services, regardless of the method of procurement.

The FJC applies to threshold procurement contracts (contracts with a value of \$3 million or more exclusive of GST) and high value procurement contracts (contracts with a value of \$20million or more exclusive of GST).

For further information, Respondents should refer to the FJC and FJC Guidelines which can be found at www.buyingfor.vic.gov.au/fair-jobs-code-guidelines-suppliers-and-businesses

Successful respondents must complete:

Fair Jobs Code Pre-Assessment Certificate

Fair Jobs Code Plan

Agreement and continuing FJC obligations

Please see Part 3 : Respondent's Offer section 11. Fair Jobs Code in the Part 1-7 ITS documents.

Invitation to Supply (ITS)

ITS Objectives

- Achieve Best Value for Money
- To merge three existing contracts into a single consolidated PPE contract
- To source quality PPE that meets health service requirements
- Create efficiency in tendering and category management through use of the National Product Catalogue
- Transparent and efficient bidding process
- Develop supplier relationship management

Prequalification

- HSV anticipates a high number of suppliers to tender for this activity which necessitates the requirement of a prequalification phase to streamline the tender and evaluation process.
- A separate ITS prequalification document, outlining HSV's expectations and requirements will be made available, along with the SOR during this phase.
- Only shortlisted suppliers will be invited to the main ITS activity within the procurement portal.
- Unsuccessful suppliers will be notified early.

Scope

- **Coverage:** The scope includes PPE used in public health services. The three existing contracts being merged and updated include Drapes & Clinical Protective Apparel, Examination & Surgical Gloves and Hand Hygiene and Chemical Disinfectant Products.
- **Term:** 5-year principal period with a mid-term price review plus two optional two-year extension periods (i.e. 5+2+2)
- **Categories:** 30 categories across a range of PPE
- **Price features:** Fixed based pricing with volume/pallet pricing (FIS)

- Minimum **two** clinical or product user referees per product or product range

Referees must:

Product Samples

(products not on current HSV contract)

HSV team are endeavouring to reduce workload and streamline the process of samples being provided to HSV

- TRW for each product category will request Instructions for Use, Cleaning instructions , if relevant and compliance to stated Standards
- Our CPAs will review details of all new products submitted at close of tender to ensure they are in scope of the category and allocated to the correct category. It is the Respondent responsibility to submit their products in the correct subcategory.
- HSV will decide if a desk top evaluation can be completed without a sample or if one is required
- In place of samples, we may request additional information like detail product specification, packaging artwork, labelling, ARTG certificate, reference letter available.
- Product references are very important as we will ring the referees to confirm their knowledge of request from suppliers and their evaluation of the products

Tender Response Worksheet (TRW)

- The TRW is used to collect detailed data on the products tendered, including price and supplier/distributor data. **The TRW has changed since the last tender**
- Data will be used to evaluate your products. – If your data is wrong or incomplete **your product may be (inadvertently or consciously) not awarded**
- Data will ultimately feed into Pricing Schedules, the HSV Catalogue, EDI (purchasing systems), WMS etc. **It's not just for clinicians**
- **Processes in HSV and Health are becoming more automated** – If your data is incorrect, ultimately it will be harder for your customers to find, use, understand and buy your products!

Tender Response Worksheet (TRW)

Instructions for completion

- Complete **all** requested information
 - Mandatory data missing = Product won't be awarded
- Tender products once only, in the most appropriate sub category
- The "Commercial" and "Clinical" tabs are linked for each Category by the "Auto populated" (Grey) Cells. Do not override or delete these formulas and do not add or delete columns, or individual cells
- To add rows (if >500 products per category) ensure that rows are added to both the "Commercial" and "Clinical" tabs & all formulas "fill down". Contact HSV if required
- Provide responses in the requested format (and units if applicable)

Tips for Responding

- Do not assume your company is known or well known by the evaluators – provide all requested information
- Do not use acronyms or abbreviations
- Do not cross-refer to other questions or answers in your responses
- Remember to save regularly
- Submit early – you can overwrite your information up to the time of closing. Late submissions can only be accepted if they meet the strict conditions of the *ITS Late Responses* clause
- Multiple users working on a submission can cause errors and delays. It is strongly recommended that only one user be logged on at one time to work on a submission.
